THE HON'BLE LT-COLONEL S B A PATTERSON, C I E, I A,
Chief Commissioner, Ajmer Merwara,

TO

THE SECRETARY TO THE GOVERNMENT OF INDIA,
FOREIGN AND POLITICAL DEPARTMENT

Dated Camp Ajmer, the 12th February 1926

SUBJECT —*Report on the Administration of Ajmer Merwara for 1924 25*

SIR,

I have the honour to submit the Annual Administration Report of Ajmer Merwara for the year 1924 25 compiled by Major R J W Heale, O B E, I A, who held the post of the Commissioner from the 5th March 1925, to the end of the year, with my remarks thereon embodied in Part I of the Report

I have the honour to be
SIR,
Your most obedient servant,

Sd R E L WINGATE,
for *Chief Commissioner, Ajmer Merwara*

PART I.

GENERAL SUMMARY

1 The average rainfall was 25 inches and 39 cents, the normal being 21 inches The Kharif crops depending on this rainfall were good, the out turn being 0 11 8 in the rupee in the Ajmer Tehsil and bumper in the Tehsils of Beawar and Todgarh The Rabi crops depending on the rainfall of the preceding year were fair The district was glad of an unexceptionally good Monsoon, which relieved the anxieties of the agricultural population and the inhabitants of Ajmer and Beawar

2 Income and expenditure as shown in the Report were Rs 25,96,099 and Rs 27,82,906, as compared with Rs 27,61,367 and Rs 28,54,817 in the previous year These figures, are, however, somewhat deceptive since figures for expenditure on irrigation and Civil works which are included in the Public Works Department Budget are not available to the Commissioner Moreover, they include certain items both on the receipt and expenditure sides which can not be legitimably considered as part of the Ajmer Merwara Budget, *e g*, an item of Rs 6 44,977 on account of interest paid at the Ajmer Treasury on Promissory Notes and War Bonds, etc A close exami nation shows that Ajmer-Merwara, as a whole, tends to show a small deficit

3 Excise collections rose from Rs 7,01,808 to Rs 7,09 414 The increase of Rs 7,606 under this head is due to the increase of rate of duty on "Charas" brought into force, with effect from the 1st April 1924 Net *Income Tax receipts amounted to Rs 1,67,628 as against Rs 2 29 056 in* the previous year The total collection of Income and Super Taxes amounted to Rs 2,63,036, the cost of collection being only 2 78 per cent 578 persons were assessed as against 614 in the previous year There was a decrease of Rs 1,37,911 in the total collections This is due to the trade depression and to the inclusion of Rs 31,000, recovered during 1923 24 on account of the preceding year's demand The incidence of Excise and Income Tax per head of population was Rs 1 6 11 and 8 4 annas respectively

4 Receipts from "Land Revenue" fell from Rs 3 66 476 to Rs 3,36,249 while those from "sale of stamps" rose from Rs 2,38,329 to Rs 2,68,039 The decrease under the former is due to the non recovery of dues from Istimrardars while the increase under the latter is due to the enhancement of the rates of Court and process fees The case with the non judicial stamps is similar

5 The incidence of crime per 1,000 of population rose from 54 3 to 61 5 Murder cases fell from 10 to 6 Dacoit Magan Singh and his followers were responsible for most of the robberies which occurred during the year. A reward of Rs 500 has recently been notified for the apprehension of this ring leader The Police were successful in arresting a Rawat Merat gang, mostly ex soldiers, concerned in 4 road robberies, one attended with murder

6 There was a decrease of 380 in the total number of civil suits including miscellaneous with the like decrease of Rs 3,55 045 in the total value

7 During the year under report 155 applications for permission to alienate land under the provisions of the Land Alienation Regulation 1924 (III of 1924) were rejected This fact shows that the Regulation has proved an efficient check on indiscriminate alienation of land

8 Owing to the good monsoon, the anxiety of the Ajmer Municipality has, for the time being, been removed as regards the water supply With a view to effect many urgent improvements, both in the sanitation and water supply of Ajmer city the four taxes, noted on the margin, have been sanctioned The first two came into force, with effect *from the 1st October 1924 For No (3) Assessment registers are under*

1 Horse tax
2 Vehicle tax
3 Water tax.
4 Visitor tax

preparation. The fourth has recently been brought into effect. The new Ajmer Municipalities Regulation 1925 has lately been sanctioned by the Government of India and has come into force with effect from the 1st January 1926.

9. During the year, under report, the separate post of the Superintendent of Education for Delhi and Ajmer-Merwara was abolished, the duties being entrusted to the Educational Commissioner, with the Government of India. Towards the close of the year, an Assistant Superintendent of Education was appointed in place of a Deputy Inspector of Schools. The scheme for the establishment of a Rajputana University was definitely abandoned, as it did not find support from the more important of the Rajputana States. There was an increase of 5 and 36 respectively in the number of recognised institutions maintained and the number of pupils therein. There was, however, a decrease of 10 in the number of unrecognised institutions with a corresponding decrease of 360 pupils. Nearly 5 per cent. of the male population and ·98 per cent. of the female population were under instruction. Expenditure on Education amounted to Rs. 5,61,579 as against Rs. 5,65,612 in the previous year. During the year under review, slow but steady progress has been made in education. The percentage of muslim students in the schools is, however, still very low.

10. The Co-operative movement in the district continues to flourish and a general all-round progress is noticeable. There was a fall of Rs. 49,000 in the working capital of all Central Banks and Societies and this is taken as a healthy sign indicating a reduction in indebtedness. The Ajmer Central Bank moved to its new building, which was with due formality opened by Sir Robert Holland. The Bank continues to enjoy the confidence of the public. The first Rajputana Co-operative Conference was held at Ajmer on the 15th and 16th November 1924, under the Presidentship of Mr G. K. Deodhar, M.A., of the Servants of India Society, Bombay, and amply justified the hopes of its promoters. The proceedings of the Conference were opened by Sir Robert Holland and a small Advisory Board was formed to carry on the work of the Conference for the ensuing year. Co-operative Societies have also started schools for children as well as adults.

11. Communal tension showed a tendency to relax. The additional police force posted in Ajmer city after riots of 1923 was withdrawn and the criminal cases instituted as a result of those riots came to conclusion. Politically the year was quiet. The Non-co-operation movement died down and inter-communal relations were on the whole satisfactory.

S. B. A. PATTERSON, Lt.-Colonel,
Chief Commissioner, Ajmer-Merwara.

Administration of courts	+25,689

Expenditure.

Interest	—29,437
General Administration 22 E.	—14,634

The variations in revenue are explained below :—

The decrease under the head "Land Revenue" is due to the non-recovery of a large amount of arrears outstanding against Istimrardars and to the adjustment of a sum of Rs. 69,772 which has been transferred from the head "Land Revenue" to the head "Public Works Department Account of Irrigation Works."

The increase under head "Stamps" is attributed to a larger sale of stamps as compared with last year.

The decrease under the head "Taxes on income" is accounted for by the fact that the cotton mills in the Merwara Sub-Division were affected by the trade depression, also the last year's figures were swollen by a sum of Rs. 31,000 recovered on account of the preceding year's demand.

The increase under head "Administration of Courts" was due to the fact that a sum of Rs. 21,000 was credited into Treasury on account of Criminal forfeiture from Munshi Maharaj Swarup. Other items aggregating Rs. 4,000 were also credited as fines.

The variations in expenditure are explained below :—

The decrease under the head "Interest" was caused by the discharge of a considerable number of war bonds and non-payment of interest on special notes in the year under report.

The decrease under the head "General Administration" occurs under "Contingencies" and "Leave Allowances."

SECTION III.

PROTECTION

(1) *Ajmer-Merwara Police (year ending the 31th December 1924)* [*Vide statements Nos 4 to 10*]

[Compiled by R S Bell, Esq, I P S, Officiating Inspector General of Police, Ajmer Merwara]

13. *Crime statistics* —The total volume of reported crime excluding false cases and including true cases reported to Magistrates was 3,046 an increase of 479 as compared with the figures for 1923 The increase falls partly under heads (i) serious offences against the person and property, (ii) minor offences against the person and (iii) public nuisance, vagrancy and other cognizable offences under special and local laws, etc, but chiefly under (iv) minor offences against property There was an actual increase of 638 in the volume of crime reported to the police during the year

The incidence of crime per 10,000, of population amounted to 61 5 as compared with 54 3 last year

14 *Investigations* —Investigations were made in 92 per cent of cases as compared with 90 per cent in 1923 92 police cases were struck off as false or as due to mistake of fact or law compared with 41 the year before

4 cases were investigated or supervised by the Deputy Superintendent of Police and 15 cases were personally enquired into or supervised by the Superintendent himself

15. *Murder* —The number of murder cases reported decreased from 10 in 1923 to 6 in 1924 Including 3 cases pending from the previous year there were 9 true police cases Of these, 2 were convicted, one was acquitted, 3 remained untraced, in one case the accused died, in another the accused is absconding, and one was pending at the close of the year

Of the 6 cases reported during the year 2 were due to sexual motives and 4 to private quarrels. One included under head ' dacoity " was committed by dacoits

16 *Poisoning* —Only one case of poisoning was reported during 1924 as compared with the same number in 1923 It, however, remained undetected There was no Magistrate's case during the year

17 *Dacoity* —The total number of true cases of dacoity reported to the police was 7 Including 9 cases pending from 1923 and 1 magisterial case there were 17 cases, as compared with 30 of 1923 In addition, there was one case of dacoity with murder Of the 17 cases 6 were convicted, 2 were discharged and 2 remained pending at the close of the year In 7 cases the police failed in detection

The Ajmer-Merwara Police showed intelligence and initiative of a high order in the detection of a case in which a Rawat Merat gang, mostly ex soldiers, completely ransacked a house even taking away the most trifling articles The gang had been concerned in 4 road robberies, one attended with murder The Police succeeded in arresting the gang and recovering the looted property and eventually secured the conviction of all 5 cases and of every member of the gang.

18 *Robbery* —Including 9 cases pending from the previous year and 5 magisterial cases of 1924, there were 43 true cases for disposal as compared with 23 in 1923 and 19 in 1922 Of the 43 cases in 1924 9 ended in conviction 4 were acquitted, 21 remained undetected and 9 were pending at the close of the year The large number of robbery cases in the year was due to the depredations of dacoit Magan Singh and his followers who were responsible for at least half of them A reward of Rs 500 has recently been offered with the sanction of the Local Administration for the apprehension of the ring-leader

19 *Burglary* —The number of true cases for disposal, including cases pending from 1923 and Magistrates' burglary cases, was 637, as compared with 557 in 1923.

There were 3 important cases of burglary, all of which were worked out. Two took place in the city of Ajmer, and one in Kekri. In the Kekri case, a local Mahajan broke open the lock of a store godown owned by a firm of cotton merchants, in broad day-light, removed the whole of his cotton valued at Rs. 2,200 and sold it in Beawar. The accused was arrested and sentenced to rigorous imprisonment with fine. Of the two cases in Ajmer, one was the work of 2 professional burglars from Aligarh (U. P.). They scaled the back wall of a house in broad day-light and, breaking a lock, extracted jewellery to the value of Rs. 2,355, but were detected. In the other case 700 war medals, stored for distribution to discharged soldiers, were stolen from a godown of the 10/4th Bombay Grenadiers. The accused, a discharged soldier, was arrested at Chittorgarh by the Government Railway Police while he was disposing of the medals. All the stolen property was recovered and the accused was convicted.

20. *Ordinary thefts.*—There were 416 true police cases for disposal compared with 376 in 1923. 184 cases, involving 206 persons, were sent up for trial, 87·50 per cent. ended in conviction.

21. *Cattle theft.*—71 true police cases were disposed of as compared with 72 in 1923; 36 cases were worked out.

22. *Criminal Tribes.*—At the close of 1924, there were 357 adult males of all classes, including "Gypsies," on the criminal tribes registers, as against 272 of 1923. The increase is due to the registration of the Chakras of 6 villages under section 3 of the Criminal Tribes Act. 54 cases were prosecuted under sections 22 and 24 of the Act. Of these 30 cases were convicted and 6 were pending at the close of the year while in 18 cases the accused are absconding. Also, 14 Sansies, 6 Kanjars and 4 Baories were prosecuted and convicted under the Indian Penal Code and Criminal Procedure Code.

Restriction under section 11 of the Act is proving beneficial in checking the ingress of State gypsies and in influencing those already restricted to settle down and adopt an honest form of livelihood.

The reciprocal arrangements of the Ajmer-Merwara District with the surrounding Indian States have continued to work, effectively up to the end of the year.

The income shows a decrease of Rs. 23,425 as compared with the figures of the preceding year. This is due to the fact that the latter figures included an item of Rs. 18,000 on account of a loan borrowed from Government last year. Moreover, the receipts under the head "Sales Miscellaneous" were less by Rs. 5,899.

The expenditure also fell short of that incurred in the previous year by Rs. 5,923. The principal decreases occurred under the heads "water supply" and "interest on loans."

39. The incidence of octroi taxation was Rs. 2-4 per head of the population against Rs. 2-6-9 in the preceding year.

The Foy Sagar lake was dry at the commencement of the year, but at its close the water level of the lake was 20·34. At the Budha Pushkar lake, the water level was 16·8⅜ at the commencement and 5·7¾ at the close of the year. The income on the whole shows a decrease of Rs 1 847 as compared with last year, which occurs chiefly under the head sale proceeds of land

The expenditure exceeds last year s figures by Rs 3 605 which is accounted for by a new well at Jalia and the appointment of a Health Officer

50 The incidence of octroi taxation per head of population was Rs 3 7 10 against Rs 3 8 6 in the year 1923 24

82 The Educational Inspector of the Punjab paid his annual visit to Ajmer and held the usual training class during the year

83 While commending to the notice of the Hon'ble the Chief Commissioner the refreshing zeal and enthusiasm and thorough knowledge of his work shown by the Registrar there stand revealed in his detailed reports certain points which require to be borne in mind

The fact is that although the loans have increased the profits have decreased This is explained as being due to a decrease in loans out on a higher and an increase on those on a lower rate of interest and to certain extraordinary expenditure incurred in moving into the new Central Bank Building

The second is the very large sum (Rs 10,00,000) out on interest In reply to queries as to the security the principle is quoted that co-operative societies provide as a substitute for material assets, honesty and a sense of obligation and keep in view the moral rather than the material sanction This may be so but the tendency to cloak proceedings that are not in accordance with sound banking principles under such sentiments may prove dangerous and should be avoided as far as possible

I am inclined to think that the presence on the Board of Directors of the Ajmer Bank of a professional Banker would be found useful and lead to add confidence in the movement and redress the balance between the philanthropic and purely business point of view

84 *Agricultural stock* —The total below compares the result of the enumeration of agricultural stock in Ajmer Merwara during the year under report with the figures of the two preceding years —

The net surplus was thus Rs. 21,551 against Rs. 16,640 last year.

The Financial results of the year were good and this and the general administration reflect credit on the Extra Assistant Conservator of Forests and his staff.

The rainfall during the year under report was exceptionally favourable but the good results in reproduction are again likely to be brought to nought by the failure of the rains this autumn.

The Forest Department will, however, fulfil one of its functions by providing grass during the shortage now prevailing.

* Excluding Rs. 107 on account of Forests profits distributed to right holders.

SECTION VI.

PUBLIC INSTRUCTION.

[Compiled by R. Littlehailes, Esq., M.A., I.E.S., Superintendent of Education, Delhi and Ajmer-Merwara.]

110. *Direction and Inspection* (vide *Statements Nos. 46 to 55*).—The year marked yet another change in the direction and inspection of schools. A separate appointment for carrying on the work of Superintendence of Education for Delhi and Ajmer-Merwara, permanently held by Mr. Watkins was discontinued: the duties being entrusted to the Educational Commissioner with the Government of India. Mr. Richey held charge till February, 1925, when he went on leave. Mr. Littlehailes officiated for him. Towards the close of the year an Assistant Superintendent of Education, whose headquarters were at Ajmer, was appointed in place of a Deputy Inspector of Schools. Mr. Ram Dhan held this appointment till the last day of the year under review, when Mr. Joshi was appointed in his place. Mr. Gaya Prasad continued as Sub-Deputy Inspector during the year, Mr. Ram Dhan retired on the 31st March after 40 years' valuable and loyal service. His work has been spoken of very highly by all officials.

111. *University and College Education.*—The scheme for the establishment of a Rajputana University was definitely abandoned during the year; as it did not find support from the more important of the Rajputana States. In the meantime there was a movement in the United Provinces to start an affiliating University at Agra, which would affiliate to itself all external colleges now linked to Allahabad. When and whether the Agra University will come into being, still remains to be seen. But it appears that Educational institutions in Rajputana will sooner or later have to find a solution for the problems created by the passing of the Allahabad University Act of 1921, and the formation of the United Provinces Board of High School and Intermediate Education. The majority of the degree classes in Rajputana, including those of the Government College, Ajmer, are comparatively small, and would scarcely justify their existence as special collegiate entities if their Intermediate classes were removed.

112. *Government College, Ajmer.*—The following are the main remarks of Mr. Miller, the Principal, on the working of this college.

" The year 1924-25 has been one of steady progress and improvement. The College is in a flourishing condition, and the number of students continues to increase. In March 1925 the number of students was 112. The increase in number is mainly in the Intermediate classes, but the Degree Classes, though still small, are growing steadily.

The College prepares students for the Intermediate Examination of the United Provinces Board, and for the B. A. and B. Sc. Examinations of the University of Allahabad. The subjects taught are English, History, Economics, Logic, Persian, Sanskrit, Mathematics, Physics and Chemistry. Terminal Examinations are held three times a year, and thereafter terminal reports are issued to parents. The results of the University and Board Examination were good.

The College has societies of an educative nature such as the Debating Society, the Hostel Association and the Scientific Society, which serve to sharpen the minds and widen the interests of students. The Boarding Houses are commodious and comfortable, the boarders numbering 40 in March last, are drawn from all parts of Rajputana. The Superintendent of the Boarding House is one of the Professors, and he pays much attention to the welfare and comfort of the boarders. In addition to its repute for excellent work in the class rooms, the college has a name for its encouragement of manly games. All students, if not medically unfit, join in games. Last year the College teams gave a good account of themselves against local teams, and the Cricket XI distinguished itself by playing in the final of the Rajputana Cricket Tournament.

From the proceeds of endowments 11 scholarships varying from Rs 4 to Rs 10 a month, are awarded annually to deserving students Five of these are tenable by students of the Degree Classes and six by students of the Intermediate Classes There is the usual percentage of free scholars

The College derives its income from fees Endowments Municipal and State contributions The income from fees during the year has been approximately Rs 11 360 and the Imperial expenditure on the College about Rs 53 500 More expenditure on staff on library and on laboratories is required Plans for electric lighting are under consideration

113 *Secondary Education*—The number of High and Middle Schools on 31st March 1925 was the same as in 1924 there is however a total increase of 277 in the number of scholars

114 *Government Anglo Vernacular High Schools*—The Government High Schools in Ajmer continued to do good work The Government School at Bisla is one of the best institutions in these parts The Government Moinia Islamia High School has however, still to enrol larger numbers in its high section The Head Master thinks that the accommodating capacity of the building cannot keep pace with the anticipated progress and advocates the need of placing a 2nd storey on the building There is no doubt that additional accommodation is necessary Better prospects for the teachers and co ordination of teaching and of subjects in the two Government High Schools are likely means to promote the popularity of the School and to make for educational economy without loss of efficiency

115 *Other recognised Anglo Vernacular High Schools*—Recognised High Schools have maintained a uniform standard of efficiency Beawar is well supplied with High Schools It has three—the Misson A B High School the Holland Municipal Ver School and the Sanatan Dharam A V High School It is doubtful whether the needs of a small place like Beawar would not be fully met by two schools The chief requirement of the Anglo Vernacular Schools in the District at present is that of trained teachers In fact with the exception of the Government High School a trained teacher is still the exception rather than the rule in Anglo Vernacular Schools in Ajmer Merwara It seems essential to create local facilities for the training [illegible] Ajmer Merwara aided schools parti[illegible] [illegible]he Punjab and the United Provinces [illegible] training our teachers

116 *Curriculum*—Now that the Rajputana Middle School Examination has been abolished Ajmer Merwara Schools may sooner or later have to follow the curriculum laid down by the United Provinces Board in its entirety Such a course may probably effect the standard of English in the higher classes Furthermore the demand for the introduction of English as a 2nd language in the Vernacular Final Schools may if granted tend to a further lowering of the standard of English Since these Schools are not generally in a position to pay the salaries needed to engage good teachers of English it may also prejudicially effect the enrolment in Anglo Vernacular schools

117 *Vernacular Secondary Education*—Vernacular Secondary Education is making satisfactory progress and the percentage of boys proceeding to the Secondary stage has increased The need for Boarding House accommodation and for extensions to School houses in rural Secondary Schools has not yet been satisfactorily met Many Secondary schools are understaffed and work is carried on with the help of Primary Grade teachers

118 *Primary Education*—The number of Primary schools was 143 during the year under review as against 138 last year The increase is due to the opening of 4 Government and one Municipal Primary Schools There is a decrease of 342 scholars in Primary schools which is due to the decrease in numbers in Mission Primary Vernacular Schools and Primary sections of the Railway schools In Government schools there is a slight increase in number In many places Primary schools are badly housed and time has now arrived when a serious effort should be made to erect houses at places where numbers justify the establishment of a permanent school

119. *Indigenous Schools.*—Besides the schools reviewed above there is a large number of private institutions managed by Mission and other bodies. It is not possible to collect absolutely reliable figures under this head but the statistics available show a total of 116 schools with 4,737 scholars. Some of these schools might be brought to the Departmental standard with slight changes in curricula.

120. *Primary Education and Local Bodies.*—Speaking of local bodies in general it may be said that the Beawar Municipality is spending the largest amount on education and Ajmer the least. The Kekri Municipality runs an Anglo-Vernacular Middle School which is being managed for them by Government Officers. The main function of local bodies in education is Primary Education.

121. *Education of Girls.*—The number of institutions of all grades for girls was, as in the previous year, 16. The total enrolment has gone up slightly. Girls' schools in Ajmer and Beawar are full and flourishing. One of the girls from the M. E. Mission School at Ajmer was awarded the Lady Reading Scholarship for midwifery training at the Elizabeth Carret Anderson Hospital, London. She completed her course during the year and is thus the second Indian woman to pass the Examination.

On the whole female education is still very backward in Ajmer-Merwara, less than one per cent. of the entire female population is reading in Schools of all grades. A satisfactory feature of girls education is the presence of girls in rural schools.

122. *Mohammadan Education.*—There were during the year 1,336 Mohammadan students out of a total 9,594 in boys' schools and 29 out of 1,385 in Girls' schools. Thus the percentage of Muslim students in the schools is still very low. In view of the fact that the Muslim boy often spends 3 to 4 years in reading the Quran before he takes to secular education, endeavours are being made to induce Maktabs to introduce secular subjects of instruction along with their religious instruction.

123. *Special Education.*—The Ajmer Normal School and the Beawar Mission Vernacular School combined are now turning out more trained Primary teachers than can be absorbed in the Schools. The Christian Girls' Boarding School at Nasirabad trains women teachers, but only enough for the requirements of the Mission Society.

124. *Co-operative Society Schools.*—The Co-operative Society has started schools for children as well as schools for adults. The latter class of school seems to be successful.

125. *Special Scholarships.*—The Government awarded special scholarship of Rs. 30 per mensem during the year to enable one Ajmer-Merwara student to pursue his studies and obtain training at the Benares Engineering College.

126. *Physical Culture.*—A good deal of attention is paid by schools to physical culture and most of the larger institutions have good Hockey, Cricket and football teams. Drill and Desi Kasrat are popular in village schools.

Scouting and the girl guide movements are gaining considerably in popularity.

127. *University and other Examinations.*—The results of the various University and other public examinations have on the whole been satisfactory. The Rajputana Middle School examination was definitely abandoned during the year.

128. *European Education.*—The St. Anslem's High School for boys and the Convent High School for girls are both flourishing institutions run by the Franciscan order. They provide an excellent education for the children of people who cannot afford the cost of the Hill schools. Both institutions work for the Cambridge Local Examinations and are able to show excellent results.

There are at present 297 boys and 182 girls in these two schools There is also a Railway European Primary school which gives children a sound grounding up to class II, where there are 34 children in attendance

Outside Ajmer there are Railway Schools at Abu Road Phulera, Bandikui, Gangapur and Jodhpur All these schools provide an elementary education for the children of Railway servants They are all well equipped and well managed All are aided by Government grants except Jodhpur

129 *General* —During the year under review slow but steady progress has been made in education With greater funds and a fuller interest by the local bodies in Primaory education a much greater advance would be possible
